Hana Berhe

Junior Full-Stack Developer

Winnipeg, Manitoba | hanagebc@gmail.com | linkedin.com/in/hana-berhe-dev-winnipeg | github.com/hana-Berhe

SUMMARY

Full-stack developer building web applications with React, Node.js, Express and MySQL, with hands-on experience integrating AI features such as semantic search and retrieval-augmented generation (RAG) using the Gemini API. Led an 8-member team to deliver an AI-powered developer forum during full-stack training at Evangadi Networks. Brings 10 years of prior experience leading technical teams and managing a business, and an electrical engineering foundation in systems thinking and structured problem-solving.

TECHNICAL SKILLS

Frontend	React, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
Backend	Node.js, Express.js, RESTful APIs, JWT authentication
AI Integration	Gemini API, retrieval-augmented generation (RAG), semantic search
Database	MySQL
Tools & Deployment	Git, GitHub, Postman, Vercel, Render

PROJECTS

Evangadi Forum — Team Lead — Live | GitHub | 2026

AI-powered Q&A forum for developers · React, Node.js, Express, MySQL, Gemini API

- Led an 8-member development team, coordinating planning and code integration through to live deployment.
- Developed the AI assistant and the discussion room.
- Built the semantic search dashboard, the AI answer assessment feature (Answer Fit), and the RAG Documents page powered by the Gemini API.

ChatGPT Clone — Live | GitHub

AI chat application · React, Node.js, Express, MySQL, Gemini API

- Built end to end: user authentication, a streaming chat API, and the React interface with private chat history.
- Added auto-generated chat titles, chat search and rename, code highlighting, and light and dark modes.

StreamFlex — Live

Full-stack movie streaming app · React, Node.js, Express, MySQL, TMDB API, Gemini API

- Coordinated the original 7-person team build, then extended it into a full-stack app with authentication, My List, and three-level ratings stored in MySQL.
- Added AI movie picks with reasons using Gemini, plus hover previews, trailers, and search.

PROFESSIONAL EXPERIENCE

Owner & Manager — Elilita Aluminium Wholesale — Addis Ababa, Ethiopia | 2013 – 2018

- Managed a wholesale business with five employees, overseeing purchasing, inventory, suppliers, customer relationships, and daily operations.

Technical Team Lead — Semaria Engineering — Addis Ababa, Ethiopia | 2008 – 2013

- Led a six-person technical team, coordinating electrical installation design, technical supervision, and engineering projects.

EDUCATION & TRAINING

Full-Stack Web Development Training — Evangadi Networks — March – October 2026

- Six-month program building and deploying full-stack applications; completed final project defense in October 2026.

B.Sc. Electrical Engineering — Haramaya University, Ethiopia — June 2008
